COMPLIANCE RETRIEVAL

GDPR coverage

Describe a product behavior or requirement. The agent will find and rerank the most relevant clauses.

User story or requirement

4. As a user, I want to view and correct any inaccurate personal information stored in my profile, so that my data remains accurate and up to date.

5. As a data protection officer, I want the system to notify affected users and the supervisory authority within 72 hours of a detected data breach, so that the organization meets its breach notification obligations.

User story or requirement

decisions, so that the system supports traceability and post-market monitoring.

4. As a QA lead, I want high-risk AI models to go through a documented conformity assessment before release, so that the system meets the Act's pre-market requirements.

5. As a user affected by an automated decision, I want the option to request human review of a high-risk AI system's output, so that I retain meaningful human oversight over decisions that affect me.
